# WAAKABOUT

Statement of Work

# OBJEC- TIVE

To develop a ride hailing app that allows users to easily book rides, pay through their wallets, and access additional features such as corporate panel, rental/outstation packages, favorite drivers, and multiple destinations.

# SCOPE

The scope of the project will include the following features:

1. **User App:** A mobile application for iOS and Android platforms that allows users to book rides, track driver's location, rate their rides, and pay through their wallet. This app should be user-friendly and easy to navigate.
2. **Web Booking Form:** A web-based booking form that allows users to book rides through the company's website. This form should be easy to use and should integrate with the user app.
3. **Corporate Panel:** A dedicated panel for corporate users that allows them to manage their employees' rides, track expenses, and generate reports.
4. **Rental/Outstation Packages:** An additional feature that allows users to book rental/outstation packages for longer journeys.

# SCOPE

Users can choose the duration of the rental and the destination.

5. **Favorite Drivers:** A feature that allows users to mark their favorite drivers and request them for future rides.

6. **Multiple Destinations:** A feature that allows users to book rides with multiple destinations. Users can add multiple stops & Regenerate response to route.

7. **Customer Wallet:** A feature that allows users to add money to their digital wallet and pay.

# DELIVERABLES

The following deliverables are expected to be completed by the end of the project:

1. Fully functional mobile app for iOS and Android platforms
2. Web-based booking form integrated with the user app
3. Corporate panel with all the required functionalities
4. Rental/Outstation packages integrated with the app
5. Favorite drivers and multiple destinations features integrated with the app
6. Customer wallet feature integrated with the app

# TIMELINE

## First Stage

UI/UX design (web bookings, passengers app, riders app, admin panel and corporate panel) -4 weeks.

## Second Stage

Implementation of frontend design for each of them. -4 weeks.

## Third Stage

Hosting, Backend Architecture, Server Structure. -4 weeks.

## **TOTAL OF 3 MONTHS**

# BUDGET

Each stage is acted based on this payment structure:

**1st Stage - #1,000,000**

**2nd Stage - #1,000,000**

**3rd Stage - #1,000,000**

**After completion of app  
and testing - #500,000**

**TOTAL FEE - #3,500,000**

Here's the account details to pay into:

**Acct. Name: Uwa Benjamin**

**Acct. Num.: 0208681066**

**Bank: GT BANK**

# TERMS OF AGREEMENT

**Authorisation:** Waakabout is engaging us as an independent contractor for Waakabout ride hailing app design, development and deployment.

**Payment:** Upon agreement, the app will be implemented based on the stages.

**Legal and License:** We warrant that the functionality contained in this project will meet Waakabout requirements and that the operation will be reasonable error-free.

**Revision During Execution:** Waakabout may be charged additional fees if it decides to make changes to the agreed upon project scope and objectives.

**Completion:** Waakabout must work together with us to complete the project in a timely manner. We agree to work expeditiously to complete the project no later than 3 months after agreement.

**TERMS OF  
AGREEMENT**

**Copyright of Project:** We guarantee that all aspects of design and construction of the project will be disclosed to Waakabout upon completion and full code, copyrights and ownership will be the sole property of Waakabout. We retain right to display graphics and other design elements as examples of its work in its portfolio.

**Copyrights and Trademark:** Waakabout represents us and unconditionally guarantees that any elements furnished to us for inclusion of the project are owned by Waakabout hold harmless, protect and defend us from any claim or suit arising from the use of such elements furnished by Waakabout.
